

ROCKY MOUNTAIN
LINERS

C A T A L O G

2024

OUR
DIFFERENCE
WE BRING TO YOUR PLANT PROGRAM

It's been a big year for Rocky Mountain Liners. We've made many large-scale improvements reflecting the innovative direction the business is taking, finishing our \$3M expansion that includes acquiring land and developing new state-of-the-art greenhouse facilities. We've also set up a new high-tech cooling environment, which on Colorado's hotter days is instrumental to the growth of our young plants. These improvements continue to support our focus on offering the best quality liners, and our catalog is again loaded with innovative and high-performance plant varieties from the most trusted breeders.

This year we're excited to announce we've added one more breeder partner, Syngenta Flowers. Be sure to check out our new Calliope Geraniums and Lantana Bandana varieties plus many more great additions from Syngenta. The beautiful, bold colors will add something special to your program.

Finally, mark your calendar for August 9, 2023, to attend our annual open house. It's our favorite event to host. We appreciate the opportunity to learn and listen how we can continue to provide the very best liners for you to finish for the market.

We look forward to another great season with you!

The Rocky Mountain Liners Team

W E L C O M E T O T H E

2024

O R D E R I N G S E A S O N

Quality Breeders:

We only partner with the most respected breeders and cutting farms from around the world to make your program innovative and well ahead of your competition.

More Sunshine:

We average 300+ days a year of Rocky Mountain sunshine that keeps your liners naturally compact. On our occasional cloudy days, our high-powered GE LEDs provide the perfect supplement of light.

Healthier Plants:

Our new, state-of-the-art facilities feature the best tools in the industry resulting in stronger, healthier, whiter root systems.

BREEDERS

TRAY SIZES

Jumbo 50

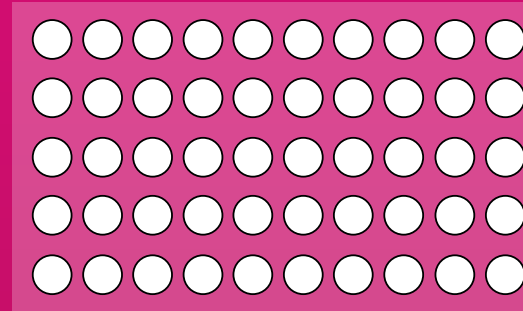

- All combo liners
- Good for premium varieties that need more soil volume and grow space for a better-quality liner
- Faster quart or gallon finish with larger root system

Split 51

- Over 75% of our catalog offered in Split 51
- Provides the most convenient size liner to allow flexibility and diversity to your program
- Excellent for creating combination baskets and quart finish

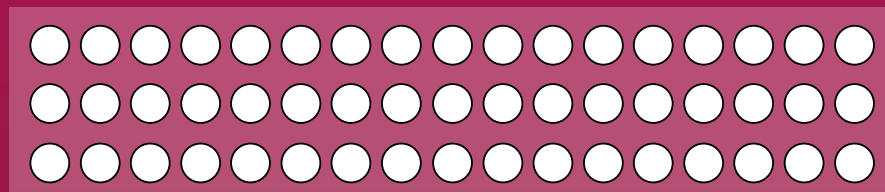

20x10x1.625

Jumbo 50

Split 51

20x5x1.5"

DETAILS

Winter Pack will be used on all of our FedEx shipments when the temperature is 32 degrees or lower.

We look forward to filling your young plant needs.
Here are the details you need to place your order with us:

ORDERING

- Select your broker of choice (listed on page 9). They will provide a quote that includes pricing, along with all the details needed to build your order.
- Orders that are specifically grown for you generally have an 8-week lead time. Some specialty items are limited in supply each season, so we recommend you order early.
- During liner shipping season, we publish a weekly availability report that allows you to fill those last-minute needs; these orders need to be placed by noon on Thursday prior to your preferred ship week.
- We welcome order requests from outside our catalog offering. The minimum required is 300 per variety per ship week, reviewed on a case-by-case basis.

TAGS

- Plants that don't require tags can be added to your orders at a 1:1 ratio. No split orders or split ratios are offered, and we can't promise to fulfill late tag orders submitted after the original order has been confirmed.
- Plants that require tags from the breeder or supplier will be reflected on your quote and included in your orders.

BOXING

- We use a one-size box that holds 8 Split 51 trays or 4 Jumbo 50 trays, or we can combine the two tray sizes to fill the box efficiently and keep your per-plant freight costs lower.
- Minimum order is one box. If your order contains a partial box, we will contact you to help you fill the box with something amazing we have available at the time of your shipment.
- We provide special winter packaging when the temperatures are threatening on your ship week. We will let you know if it's too cold to ship so we can hold your order to avoid freeze damage.

SHIPPING & DELIVERY

- Shipping your boxes is generally handled by FedEx Air or Ground, depending on your location, and is billed to your broker accounts. Please let us know of any specifics in your area that work best to get plants there safely, and we will do our best to accommodate your request.
- We offer customer pickups on Tuesdays of your ship week. We can also provide our grower truck to deliver trays in the Colorado Front Range area. We can deliver greater distances with special arrangements made in advance. Pricing is based on mileage from our farm.
- Claims must be made within 3 days of receiving your order and must include pictures of each tray with descriptions of any shipping or quality concerns.
