OUR DIFFERENCE

WE BRING TO YOUR PLANT PROGRAM

What's New

We have exciting news this year with the addition of over 100 varieties that are new to the 2026 market, more than 600 items added to our full liner selection, and a new breeder, Selecta North America. We're very selective when it comes to growing our family of breeders, we are thrilled to showcase the original innovator behind the Night Sky Petunia, along with an exclusive Calibrachoa, featuring unique double flowers in shades of blue, magenta, red, white, and yellow. Don't miss ordering Selecta's "City Lights™ Purple" Dahlia, which won Best of Show at Colorado State University (CSU) trials this past season.

Operationally

Rocky Mountain Liners is proud to continue to serve smaller to medium growers with our Split 51 and Jumbo 50 offerings that are focused on the top-performing varieties throughout the catalog. We're thrilled to expand our catalog with more than 600 new selections, some of which will only be offered in a 102 tray, or Jumbo 50 sold per 100. In addition, we continue to expand our grower truck route to keep our plants delivered to you in the safest and most economical way possible. Please inquire for more details on all these exciting changes.

Mark Your Calendar

Once again, Rocky Mountain Liners is excited to be part of CSU's Destination Days 2025, and our event is scheduled for August 6, 2025. Our breeder partners will showcase many of the 2026 varieties. Our broker partners and many of our essential industry partners will also be there to support all your spring planning questions. This is our favorite event of the year, where we can connect with like-minded friends and learn how to continue to provide the best liners for you. You can visit Colorado Destination Days Horticulture and Landscape Architecture for more information on the other great events included in this program.

We Love Hearing From You

Please continue to share how we can better serve you and help your business grow. We look forward to another great season with you!

The Rocky Mountain Liners Team

Quality Breeders:

We only partner with the most respected breeders and cutting farms from around the world to make your program innovative and well ahead of your competition.

More Natural Sunshine and Supplemental Light:

We average 300+ days a year of Rocky Mountain sunshine that keeps your liners naturally compact. On our occasional cloudy days, our high-powered GE LEDs provide the perfect lighting supplement.

Healthier Plants:

Our new, state-of-the-art facilities feature the best tools in the industry, resulting in stronger, healthier, and whiter root systems.

Split 51, 102 & Jumbo 50 Liners:

We offer the flexibility to order smaller quantities so that you can offer more varieties and add more diversity to your program.

BREEDERS

TRAY SIZES

Jumbo 50

- All combo liners
- Good for premium varieties that need more soil volume and grow space for a better-quality liner
- Faster quart or gallon finish with larger root system

Split 51

- Over 50% of our catalog offered in Split 51
- Provides the most convenient size liner to allow flexibility and diversity to your program
- Excellent for creating combination baskets and quart finish

102

- New liner size
- All new geranium program that provides a more economical option in this popular category.

Jumbo 50
20x10x1.625

Split 51
20x5x1.5"

102
20x10x1.5"

DETAILS

Winter Pack will be used on all of our FedEx shipments when the temperature is 32 degrees or lower.

Here's Purple Pete: Our climate-controlled truck keeps your plant delivery at optimal temperature. This ensures they arrive in the condition they were grown.

We look forward to filling your young plant needs.
Here are the details you need to place your order with us:

ORDERING

- Select your broker of choice (listed on page 9). They will provide a quote that includes pricing, along with all the details needed to build your order.
- Orders that are specifically grown for you generally have an 8-week lead time. Some specialty items are limited in supply each season, so we recommend you order early.
- During liner shipping season, we publish a weekly availability report that allows you to fill those last-minute needs; these orders need to be placed by noon on Thursday prior to your preferred ship week.
- We welcome order requests from outside our catalog offering. The minimum required is 300 per variety per ship week, reviewed on a case-by-case basis.

TAGS

- Tags can be added to your orders at a 1:1 ratio. No split orders or split ratios are offered, and we can't promise to fulfill late tag orders submitted after the original order has been confirmed.
- Plants that require tags from the breeder or supplier will be reflected on your quote and included in your orders.

BOXING

- We use a one-size box that holds 8 Split 51 trays, 4 102 trays or 4 Jumbo 50 trays, or we can combine these tray sizes to fill the box efficiently and keep your per-plant freight costs lower.
- Minimum order is one box. If your order contains a partial box, we will contact you to help you fill the box with something amazing we have available at the time of your shipment.
- We provide special winter packaging when the temperatures are threatening on your ship week. We will let you know if it's too cold to ship so we can hold your order to avoid freeze damage.

SHIPPING & DELIVERY

- Shipping your boxes is generally handled by FedEx Air or Ground, depending on your location, and is billed to your broker accounts. Please let us know of any specifics in your area that work best to get plants there safely, and we will do our best to accommodate your request.
- We offer customer pickups on Tuesdays of your ship week. We can also provide our grower truck to deliver trays in the Colorado Front Range area. We can deliver greater distances with special arrangements made in advance. Pricing is based on mileage from our farm.
- Claims must be made within 3 days of receiving your order and must include pictures of each tray with descriptions of any shipping or quality concerns.
